TRANSCRIPT OF THE REGISTERS
OF THE
COMPANY OF STATIONERS OF LONDON.
1640—1655 A.D.
VOLUME I.

This Copy is numbered

Seventy

P R E F A C E.

It is now nearly forty years since the late Professor Arber issued the first volume of his Transcript of the Registers of the Stationers' Company, the fourth volume of which carries the Transcript down to 1640. These Registers were continued by the Stationers' Company to 1708.

From 1710 a Register of Copyright Works has been continued at Stationers' Hall under the provisions of the Copyright Acts of 1710 and 1842, and the well-known phrase, "Entered at Stationers' Hall," has hitherto been deemed by many the hall-mark of copyright. The new Copyright Act of 1911 has swept away all formalities relating to copyright, and when the Act has been adopted throughout the entire British Empire, registration of copyright at Stationers' Hall will cease. At no time was the Register complete, for in its inception it was simply a record of the property of members of the Stationers' Company established by the Governing Body with the object of avoiding disputes as to ownership, and it does not include publications issued under Letters Patent and other Royal grants, but it is the most valuable and extensive record of publications in this country. The entries from 1640 to 1708 vary considerably in their interest to the present generation, and the many pages of entries of news letters and sermons may seem somewhat monotonous. Professor Arber, with indefatigable energy,

P R E F A C E.

included in his volumes much varied and valuable information relating to printers and printing, but my project is confined to an exact and complete Transcript of the remaining volumes of the Register from the date when his Transcript closes to the conclusion of the Company's Register, so that it may be preserved for the use of bibliographers and literary men of this and future generations. The entries in the Register were transcribed by Mr. H. R. Plomer, whose valuable assistance I desire to acknowledge, and each page of the proof has been examined to ensure accuracy in every detail. It will be seen that at times the spelling of the clerk who made the original entries was deplorable, but it has been thought better to reproduce his shortcomings and thus ensure an exact Transcript.

King's Printer and Master of the Stationers' Company.

A. B. Rivington Esq.

STATIONERS' HALL, E.C.

June, 1913.
